

RE: SB-00374

Dear Committee Members,

I find it ironic that our godly state representatives have taken it upon themselves to determine whom among our children suffer from mental illness after they themselves have set this once powerful state into a death spiral with policies that can only be described as TOTALLY INSANE. Here's a newsflash: instead of trampling on our constitutional rights under the guise of trying to help our children, why don't you try putting the state's financial house in order so our children can really have a future beyond endless financial servitude. Given your dismal, shocking record of dismantling the once proud state of CT, I simply cannot grasp your endless, delusional pride that compels you to batter us citizens with endless invasions into our privacy.

When you took your oath of office you swore your loyalty to defend and uphold the constitution. To violate this oath is a crime.
